

END USER LICENSE AGREEMENT

Effective Date: September 2026

Licensor: FONTSIDER STUDIO

Website: fontsider.com

Contact: fontsider@gmail.com

This End User License Agreement (“EULA”) governs the installation, access, and use of Fontsider font software (“Font Software”). By purchasing, downloading, installing, accessing, or using the Font Software, you agree to be bound by this EULA and by the specific license tier and limits shown on your order or License Certificate.

24. Entire Agreement and Contact

1. License Grant

- 1.1. Fontsider Studio (“Fontsider”, “we”, “us”, or “our”) grants the purchaser (“Licensee”, “you”, or “your”) a limited, non-exclusive, non-transferable license to install and use the Font Software only within the scope of the license tier purchased.
- 1.2. The Font Software is licensed, not sold. You do not acquire ownership of the Font Software, its source code, or the typeface design.
- 1.3. Your rights are determined by this EULA together with the license tier, quantities, limits, and other details shown on your order and License Certificate.
- 1.4. Any use not expressly permitted by the purchased license is reserved to Fontsider and requires an appropriate upgrade or separate written license.

2. License Tiers and Scope

The Fontsider licensing system consists of five principal tiers. The following limits are part of the license scope:

Limit	Personal	Standard	Professional	Extended	Corporate
Users	1	2	5	10	25+
Devices	1	3	8	20	Unlimited
Commercial projects	—	5	Unlimited	Unlimited	Unlimited
End products for sale	—	3,000	20,000	500,000	Unlimited
Paid ad impressions	—	5,000	50,000	1,000,000	Unlimited
Web pageviews / month	Testing	10,000	500,000	1,000,000	Unlimited
Organic social media	Personal	Unlimited	Unlimited	Unlimited	Unlimited
Logo design	—	Yes	Yes	Yes	Yes
Trademark registration	—	—	—	Yes	Yes
ePub / eBook	—	—	—	10 titles	Unlimited
App / Game / Software	—	—	—	1 app/title	Unlimited
Broadcast / Cinema / TV	—	—	—	—	Yes
Server installation	—	—	—	—	Yes

- 2.1. “Unlimited” means no numerical limit within the applicable category, but all other terms of this EULA continue to apply.
- 2.2. The purchased license tier does not automatically grant rights listed in higher tiers. A higher-tier right requires the corresponding license.

3. Licensed Users and Desktop Installation

- 3.1. The Font Software may be installed only for the number of licensed users and desktop devices included in the purchased tier.
- 3.2. A licensed user may use the Font Software on the permitted devices for authorized design and production work.
- 3.3. The Font Software may not be made available to unlicensed users through shared folders, public downloads, shared accounts, or other access methods.
- 3.4. If additional users or devices are required, the Licensee must obtain an appropriate license upgrade before exceeding the purchased limit.

4. Commercial Use and End Products

- 4.1. Commercial use is permitted only under Standard, Professional, Extended, or Corporate licenses and within the applicable commercial-project limit.
- 4.2. An “End Product” is a finished physical or digital product incorporating rendered typography created with the Font Software and intended for sale or distribution.
- 4.3. End-product sales are cumulative across applicable products and are subject to the purchased tier’s stated sales limit.
- 4.4. The End Product right does not grant the recipient of the End Product a right to access, extract, edit, or redistribute the Font Software.
- 4.5. Editable templates, on-demand design systems, or products that provide third parties with access to the Font Software require a separate license or written permission.

5. Website and Web Embedding

- 5.1. Where website use is included in the purchased tier, the Licensee may use the Font Software for website typography, including self-hosted webfont files, within the applicable monthly pageview limit.
- 5.2. Personal Use permits web use for testing only. It does not grant production website embedding.
- 5.3. The Font Software must be implemented in a manner that does not intentionally provide visitors with a downloadable or extractable font file.
- 5.4. The Licensee must not use the Font Software in public design editors, template generators, or similar systems where users can create and export new designs using the font, unless separately licensed.
- 5.5. Web usage must remain within the monthly pageview limit of the purchased tier. Where the Corporate tier applies, web pageviews are unlimited.

6. Digital Advertising

- 6.1. Paid digital advertising is permitted under Standard, Professional, Extended, and Corporate licenses within the applicable monthly impression limit.
- 6.2. The monthly limits are 5,000 impressions for Standard, 50,000 for Professional, 1,000,000 for Extended, and unlimited for Corporate.
- 6.3. If a campaign is expected to exceed the applicable limit, the Licensee must obtain an upgrade before exceeding that limit.

7. Organic Social Media

- 7.1. Organic, non-paid social media content is permitted according to the purchased tier.
- 7.2. Standard, Professional, Extended, and Corporate licenses permit unlimited organic social media use.
- 7.3. Personal Use is limited to personal social media use and does not permit monetized or paid promotional use.

8. Logo Use and Trademark Registration

- 8.1. Standard, Professional, Extended, and Corporate licenses permit the Font Software to be used to create logos or logotypes.
- 8.2. Personal Use does not include logo design rights.
- 8.3. Trademark registration is permitted only under Extended and Corporate licenses.
- 8.4. A logo created under a tier that does not include trademark registration may be used as a logo, but it may not be registered as a trademark unless the Licensee obtains the required license.
- 8.5. Logo artwork supplied to a client should be delivered in outlined, flattened, or otherwise non-editable form unless the client has its own appropriate license.

9. ePub / eBook Embedding

- 9.1. ePub and eBook embedding is permitted only under Extended and Corporate licenses.
- 9.2. Extended permits up to 10 publication titles. Corporate permits unlimited titles.

- 9.3. The embedded Font Software must be protected against unauthorized extraction or reuse to the extent reasonably possible.

10. Apps, Games, and Software

- 10.1. Embedding the Font Software in an app, game, software product, or similar executable product is permitted only under Extended and Corporate licenses.
- 10.2. Extended permits one app/title. Corporate permits unlimited apps/titles.
- 10.3. The implementation must prevent ordinary end users from obtaining the Font Software as a standalone usable file.

11. Server Installation

- 11.1. Server installation is permitted only under a Corporate license.
- 11.2. This includes installation on servers used for automated generation, rendering, processing, or other server-side font use.
- 11.3. A desktop, web, or Extended license does not grant server installation rights.

12. Broadcast, Cinema, and Television

- 12.1. Use of the Font Software in broadcast, cinema, television, or comparable professional audiovisual production is permitted only under a Corporate license.
- 12.2. Standard, Professional, and Extended licenses do not include these rights.

13. Client Work and Contractors

- 13.1. A licensed user may use the Font Software to create authorized work for clients, provided the use remains within the purchased license scope.
- 13.2. The Licensee must not transfer or permanently provide the Font Software to a client merely because the font was used in client work.
- 13.3. If a client, contractor, printer, developer, agency, or other third party needs direct access to the Font Software, that party must have its own appropriate license unless Fontsider expressly permits the access in writing.
- 13.4. Where temporary access is authorized for production or technical output, the third party may use the Font Software only for the specified project and must cease access when the authorized work is completed.

14. Font File Sharing and Redistribution

- 14.1. You may not sell, resell, sublicense, rent, lease, lend, redistribute, upload, publish, or otherwise provide the Font Software as a standalone font product.
- 14.2. You may not place the Font Software in public repositories, download folders, file-sharing services, or other locations accessible by unlicensed persons.
- 14.3. You may keep reasonable archival backup copies under your control for legitimate backup purposes.

15. Modification and Derivative Font Software

- 15.1. You may not modify, rename, decompile, reverse engineer, or create a derivative font from the Font Software without Fontsider's prior written permission.
- 15.2. Converting text created with the Font Software to outlines or rasterized artwork for an authorized design is permitted.
- 15.3. Creating a modified font file, alternate character set, new font family, or derivative font software requires written permission.

16. AI and Machine Learning

- 16.1. The Font Software and its source files may not be used to train, fine-tune, test, validate, or create datasets for artificial intelligence, machine learning, or similar generative systems without Fontsider's prior written permission.
- 16.2. This restriction applies to the Font Software itself and to copies or representations supplied for the purpose of developing such systems.

17. Ownership and Intellectual Property

- 17.1. Fontsider and/or its licensors retain all intellectual-property rights in the Font Software and typeface design.
- 17.2. Purchasing a license grants usage rights only and does not transfer ownership.
- 17.3. All rights not expressly granted under this EULA are reserved.

18. License Duration, Upgrades, and Additional Rights

- 18.1. The license is perpetual unless the License Certificate or order expressly states otherwise.
- 18.2. A Licensee may upgrade to a higher tier when additional users, devices, projects, sales, advertising impressions, web traffic, or other rights are required.
- 18.3. An upgrade does not retroactively authorize uses that were outside the purchased license before the upgrade unless Fontsider expressly agrees otherwise.
- 18.4. Custom licensing may be available for uses not covered by the standard tiers.

19. Prohibited Uses

- 19.1. Using the Font Software outside the scope or limits of the purchased license.
- 19.2. Sharing or distributing the Font Software with unlicensed persons or organizations.
- 19.3. Selling, sublicensing, renting, leasing, or redistributing the Font Software.
- 19.4. Making the Font Software publicly downloadable or intentionally extractable.
- 19.5. Embedding the Font Software in apps, games, software, ePub, websites, or servers without the required license.
- 19.6. Registering a trademark using the Font Software without an Extended or Corporate license.
- 19.7. Using the Font Software for broadcast, cinema, or television without a Corporate license.
- 19.8. Modifying or creating derivative Font Software without written permission.
- 19.9. Using the Font Software for AI/ML training, testing, validation, or dataset creation without written permission.
- 19.10. Circumventing technical protections or license limits.

20. Compliance and Records

- 20.1. The Licensee should retain the purchase record, invoice, License Certificate, and a copy of this EULA for as long as the Font Software is in use.
- 20.2. Fontsider may request reasonable information necessary to verify compliance with the purchased license.
- 20.3. If you discover that your use exceeds a numerical limit, you should stop the excess use where practical and contact Fontsider to obtain the required additional rights or upgrade.

21. Termination

- 21.1. This license remains in effect for the duration stated in the License Certificate unless terminated under this EULA.
- 21.2. Fontsider may terminate the license if the Licensee materially breaches this EULA and fails to remedy the breach within a reasonable period after notice, where remedy is possible.
- 21.3. Upon termination, the Licensee must cease use of the Font Software and delete or destroy all copies in its possession, except where retention is required by law.
- 21.4. Termination does not limit any other rights or remedies available under applicable law.

22. Disclaimer and Limitation of Liability

- 22.1. The Font Software is provided subject to the rights and warranties expressly stated in the applicable order and this EULA. To the extent permitted by law, Fontsider disclaims implied warranties not expressly provided.
- 22.2. To the maximum extent permitted by applicable law, Fontsider will not be liable for indirect, incidental, special, consequential, or loss-of-profit damages arising from the use or inability to use the Font Software.
- 22.3. To the maximum extent permitted by applicable law, Fontsider's aggregate liability arising from the license will not exceed the license fees actually paid for the affected Font Software.

23. Governing Law

- 23.1. This EULA shall be governed by the laws specified in the License Certificate or applicable order. If no governing law is specified, the parties should refer to the governing-law provision designated by Fontsider in its current legal terms.
- 23.2. Any dispute shall be handled by the competent courts or dispute-resolution forum applicable under the designated governing law.

24. Entire Agreement and Contact

- 24.1. This EULA, together with the applicable order, License Certificate, and any written custom licensing agreement, constitutes the agreement governing use of the Font Software.
- 24.2. If a specific written license or order grants a different right or limit for a particular use, that specific written term controls for that use.
- 24.3. If any provision is found invalid or unenforceable, the remaining provisions will remain in effect to the extent permitted by law.
- 24.4. Fontsider may update this EULA for future purchases. The version applicable to your purchase is the version identified on your order or License Certificate.
